Femal checks out the latest red carpet fashion heroes and no-nos

**Michelle** Collier's dramatic orange Stella McCartney may think of herself as a lady politician, but this figure-hugging outfit is far from chic for the colossal streets of Cannes. At the Tropic Marjorie of the Star Awards, Michelle looks polished in a simple, matched with a large clutch and nude shoes. She may be saying farewell to the show, but with her new hair, she looks like she has no dramas when it comes to style.

This week, Femal tests a range of beauty products ...

**Dry2Alive** face and body hydrating cream, 50ml, £10.40, [www.dry2alive.com](http://www.dry2alive.com)

**They say:** Topically applied, this natural herb soothes dry and itchy skin and is particularly effective for those with sensitive skin, eczema and psoriasis.

**We say:** I have recently been suffering from mild eczema but this product has brought relief. It is non-greasy and calms and rejuvenates the skin, rather than just covering up the problem places.

**L'Oréal New Skin Perfection** is a 4-in-1 Dermology Microdermabrasion, 30ml, £3.50, [www.loreal.com](http://www.loreal.com)

**They say:** A high-performance hypo-allergenic cleanser for face, skin and hair, suitable for sensitive skin. It cleanses, makes-up, erodes pores and removes impurities.

**We say:** I have been using this for two weeks and I can already see and feel a dramatic change in my skin. It cleanses, exfoliates and refreshes the skin, rather than just covering up the problem places.

**L'Oréal Paris** facial cleanser, 50ml, £3.50, [www.loreal.com](http://www.loreal.com)

**They say:** Ultra-effective, ultra-gentle facial cleanser. A rich, soft, oily cleansing cream that cleans gently for all skin types.

**We say:** This facial cleanser is the ultimate skin-saving ally. After use, a creamy lather and a soft, damp skin is left behind. The product can become slightly messy if used once or twice a week. I found it improves blemishes and the jet sets a while.

**Charypops** Spa-Gin all-in-one facial wipes, 25 wipes, £2.50, [www.charypops.com](http://www.charypops.com)

**They say:** These soft and smooth facial wipes from Charypops Spa-Gin range are perfect to cleanse away make-up when you are on the go.

**We say:** These skin wipes are quick and effective at removing all make-up, including waterproof mascara. And thanks to their tea tree and aloe vera, they have a soft, moisturising effect after use. They also have a useful covering that locks in moisture and keeps your face fresh until the end of the packet.
